ADVERTISING FORMS For the Fall Issue of this Directory **CLOSE** October 7, 1915

USEFUL INFORMATION

The purpose of this section is to convey information regarding the various points of interest in New York City. This information has been checked very carefully, and is as nearly accurate as possible. More detailed information can be obtained by telephoning the various places, first consulting the alphabetical section of this Directory for telephone numbers.

STREET DIRECTORY

The list of Public Telephones in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens, beginning on page 25, may be used as a fairly comprehensive Street Directory, as, in connection with the address and number of the Public Telephone, the intersecting street, or avenue, is generally given.

THE NEW YORK PUBLIC LIBRARY

Central Building, 5th Avenue and 42d Street, open every day in the year, holidays included. Hours 9 A.M. to 10 P.M. on week days; 1 to 10 P.M. on Sundays.

For reading of books within the building, any well-behaved person has free use of the collections; for withdrawal of books for home use, a special circulation room is provided for adults and another for children, both on the ground floor near the 42d Street entrance.

The main reading room is on the top floor of the building and has seats for 761 readers.

Besides this general reading room, there are special rooms for American history, prints and engravings, art and architecture, music, local history and genealogy, Slavonic literature, Jewish literature, Arabic and other Oriental literatures, the mathematical and physical sciences, economics and sociology, public documents, current periodicals, technology and the industrial arts, patents and newspapers.

On the top floor are four galleries of paintings and engravings, and on the main floor opposite the 5th Avenue entrance is an exhibition room for the display of rare books and manuscripts. These rooms close at 6 P.M.

Circulation Branches

For location of Branch Libraries see telephone listings in Manhattan & The Bronx Section of this book under "New York Public Library." For Branches in the Borough of Richmond, see telephone listings under City of New York, Public Library in the States Island (Richmond) Section.

For location of Public Libraries in Richmond see telephone listings in Richmond section under Caption, City of New York.

CITY MARKETS

Washington Market, Est. 1812, at West and Fulton Sts., covers one sq. block; the largest retail market in the city. Here is carried a complete line of dairy produce, eggs, meat, garden truck, game, and all kinds of game in season. Well worth one's time to visit as a point of interest. Easily reached by elevated N. R., or Hudson tunnel, being just a short distance from either.

West Washington Market, Est. 1889, at Gansevoort, West, and Little West 13th Sts. Strictly wholesale, meats, gar. ne produce, live and dressed poultry. The largest live poultry market in city.

Farmers' Market, Est. about 1879, at Gansevort & Little West 13th Sts. Open wholesale market where farmers from Long Island, Staten Island and Jersey sell their produce to dealers from their wagons.

Jefferson Market, Greenwich Ave. & 6th Ave., West 10th St. Retail market.

Fulton Fish Market, Fulton St. & East River. Wholesale sea food only.

LEGAL HOLIDAYS IN NEW YORK

New York Telephone Company
Directory Advertising Department
25 Church St., N. Y. City

THE NEXT ISSUE OF THE

NEW YORK CITY TELEPHONE DIRECTORY

Goes to Press Thursday, Oct. 14th, 1915

The Oct. issue will contain thousands of new names, and on account of the usual removals, changes of firm names, business designations, etc., many listings will be changed.

If you are contemplating taking new service, or making any changes in or additions to your present service, you should notify our nearest Commercial Office, in writing, as far in advance of the above date as possible, in order that you may take advantage of the new directory listings.

ADVERTISING in the telephone directory offers an attractive means of reaching all telephone subscribers in New York City. Advertisers desiring new or additional space are requested to send copy at least six weeks in advance of the above date in order that proofs may be prepared and submitted for approval.

Advertising forms CLOSE OCT. 7th

Address all communications relative to advertising to the Directory Advertising Department, 25 CHURCH STREET, NEW YORK CITY.

NEW YORK TELEPHONE COMPANY

"Long Distance is the short cut to business."

"LONG DISTANCE SELLING METHODS"

Illustration and copy for this advertisement are taken from a "ginger" circular sent by a big, wide-awake automobile company to its agents. (Name on Application).

"How to get to prospects from whom you're separated by impassable roads? How to get to prospects at out-of-the-way points? How to keep in close touch with your dealers?

"Long distance is the solution of these problems.

"Everybody is always 'at home' to long distance. You use the telephone for local calls every day—every hour. You buy or sell over it. It's quick and cheap. Why not extend its usefulness and profit?

"There is a circle of 100 miles around your office in which you can deal just as easily over the telephone.

"Even the best salesman doesn't always get an interview. People are experts in 'dodging.' Competition is keen. Methods of approaching people must be carefully considered. The mails are flooded with circulars and letters.

"The telephone is a means of approach that is not overdone. It means business of importance and gets even better attention than a telegram. You talk direct to your prospects—give and receive full explanations—get an answer on the spot.

"Call your dealers and salesmen every day or two. Give them some of your ginger. A telephone conversation is almost equal to a personal conference and you know what a stimulus that is to business.

"You have a lot of out-of-town prospects who are just on the verge of buying. You can't get to them right now. You may be too busy—the roads may be bad. Telephone them. Make an appointment for a demonstration if you can't close at once.

"Most of you have received a lot of prospects from the Light-Six campaign. Some you haven't reached. Telephone them today. Sit down right now and put in calls for them. These are splendid prospects. Over 60 per cent. of them will buy in the next few months. If you don't get them immediately, some other fellow will.

"The next sixty days is the biggest selling season of the year. Your 'profit time' is here. Roads are open—the sun is shining—spring zephyrs are blowing—even Nature is doing her best to help you sell.

"Every man who hasn't an automobile wants one. Every man who has one wants a new one. Now is the time to sell him a ———.

"Your farm prospects are among your best ones—they have the money and are buying cars right now. Every dealer should invest from $5 to $10 a day during the next thirty days for telephoning. $150? Yes—but what's that amount compared to the time saved, traveling expenses saved and the profit on increased business?"

"Competition is keen. Methods of approach must be carefully considered. People are always 'in' to long distance. It is quicker and cheaper than traveling and more effective than writing. Long distance widens your field of action. It increases your profits. Use the telephone. You will make more money."

NEW YORK TELEPHONE COMPANY

EXECUTIVE AND GENERAL OFFICES

15 DEY STREET (Borough of Manhattan) NEW YORK CITY

COPYRIGHT, 1910, BY NEW YORK TELEPHONE COMPANY

TELEPHONE DIRECTORIES

The New York City Telephone Directory is issued three times a year, in February, May and October; and contains the listings of subscribers in all boroughs of New York City.

For listings of subscribers in nearby cities, towns and suburbs, consult the *Suburban Directory*.

This Directory is the property of the New York Telephone Company. It is furnished free of cost to subscribers and must be surrendered to the carrier who delivers the next subsequent edition.

Many call numbers are changed and new numbers listed in every issue of the directory. It is for subscribers' own interest as well as that of the Telephone Company, that all old directories are collected, as the use of obsolete telephone books results in wrong number calls, which are an annoyance to both subscribers and the Company.

The Company assumes no liability for damages arising from errors or omissions in the making up or printing of the Directory, nor can it guarantee the permanency of call numbers assigned or to be assigned. Subscribers are, therefore, advised not to print telephone numbers on stationery, etc., but to use the phrase "Telephone Connection."

HOW TO USE THE TELEPHONE

Speak *directly into* the mouthpiece with your lips *close* to it.

Speak *distinctly* and *deliberately*.

Obtain telephone numbers from the Telephone Directories. Calling numbers from memory, or taking them from cards, letterheads, etc., often results in *wrong number connections* and *delays*.

If the number is not found in the Directory, call "Information." Calls for information are free of charge.

When giving a number to the operator, state—(1) the name of the central office wanted, (2) each figure of the telephone number, and (3) the party line letter, if there is one. Numbers which are even hundreds or even thousands should be given as such, instead of each figure being given separately.

Examples:

John	1253	"John, one-two-five-three"
Main	125-J	"Main, one-two-five, Party J"
Broad	4800	"Broad, four-eight-hundred"
Worth	5000	"Worth, five-thousand"

If you are calling from a party line station, announce the letter of your station, after giving the call as above.

Example: "This is party J calling."

After giving the number, *listen to the operator* as she repeats it. If she repeats the number correctly, say, "Yes" or "Right." If she does not repeat the number correctly, say "No" and give the number again.

After calling a number, *remain with the receiver at your ear* until the called number answers or until you receive a definite report.

When the called number answers, announce first the name of the person to whom you wish to talk and then your own name or the name of your firm.

Answer telephone calls *promptly* in order to avoid a report of "don't answer" being given.

When answering calls, announce your name or the name of your firm.

To call back the operator, move the receiver hook up and down *slowly*.

Do not hang up the receiver until you are ready for the operator to take down the connection.

When you are not using the telephone, see that the receiver is *on the hook*, large end down.

QUESTIONS AND COMPLAINTS

Operators are not supposed to answer questions or to engage in conversation beyond that necessary to complete connections. A subscriber who wishes to ask a question should first call for "Information."

Any complaint should be telephoned, not written. Ask the operator for the "Traffic Manager."

CLASSES OF TELEPHONE CALLS

There are three broad classes of telephone calls, viz:

1. Local Calls.
2. Two-Number Toll Calls.
3. Particular-Person Toll Calls.

A Local Call is one to any telephone located within the same local service area.

A Two-Number Toll Call is one made *by number* for a telephone located outside the local service area and at a point to which there is a two-number toll rate. Charge is made if connection is completed with the number called, the time for which the charge is made beginning when the number called first answers. More rapid service can be given, and in general a lower rate is charged, on two-number toll calls than on particular-person toll calls.

A Particular-Person Toll Call is one made *by name* for a person reached through a telephone which is located outside the local service area and at a point to which there is a particular-person toll rate. Charge is made if connection is completed with the particular person called (or with the number called, if the calling subscriber has indicated that he is willing to talk with "anyone" at the called station), the time for which the charge is made beginning when conversation with the particular person (or the number called, if it is a call for "anyone") first starts. *Toll Calls between certain points within a relatively short distance of each other must be made as two-number calls, no particular-person calls being accepted between such points.—see rate tables in the New York City and the Suburban Telephone directories.*

REGULATIONS GOVERNING LOCAL CALLS

Local Calls should be made *by number* except on calls made for the purpose of filing telegrams and on certain emergency calls as hereinafter shown.

Messenger Calls—Messenger service will *not* be arranged for by the Telephone Company on local calls, for the purpose of calling to a given telephone persons having no telephone. It is sometimes possible for calling subscribers to arrange for messenger service through public telephone agents located in the district called. In such a case, the calling subscriber should ask for "Information" and give her the address of the person desired. If the information records show a public telephone in that neighborhood, the calling subscriber will be given the number of that telephone. The calling subscriber must then make the necessary arrangements with the agent at the called station for the messenger service and for payment therefor. The Telephone Company assumes no responsibility for the messenger service rendered and will not bill the charge for such service against the calling subscriber's telephone. The regular charge will be made for the telephone connection to the called station, and if a return call is made from the called station, it will be charged to that station.

Collect Calls—The collection of telephone charges from the called station will not be permitted on local calls.

REGULATIONS GOVERNING TWO-NUMBER TOLL CALLS

Two-Number Toll Calls must be made *by number* in the same manner as local calls. When a two-number toll connection is desired, give the number to the first operator who answers, and remain with the telephone receiver at the ear until the called number answers or until the operator reports. If the call is given to the operator by number it will be handled as a two-number call.

Messenger Calls—Messenger service will *not* be arranged for by the Telephone Company on two-number toll calls for the purpose of calling to a given telephone persons having no telephone connection. It is sometimes possible for calling subscribers to arrange for messenger service through public telephone agents located in the district called. In such a case, the calling subscriber should ask for "Information" and give her the address of the person desired. If the information records show a public telephone in that neighborhood, the calling subscriber will be given the number of that telephone. The

GENERAL NOTICES
for the Information of Telephone Users

calling subscriber must make the necessary arrangements with the agent at the called station for the messenger service and for payment therefor. The Telephone Company assumes no responsibility for the messenger service rendered and will not bill the charge for such service against the calling subscriber's telephone. The regular toll charge will be made for the telephone connection to the called station and if a return call is made from the called station, it will be charged to that station.

Collect Calls—The collection of telephone charges from the called station will not be permitted on two-number toll calls.

Rates and Charges—Rates to the more important points to which two-number toll calls may be made, will be found in rate tables in telephone directories.

REGULATIONS GOVERNING PARTICULAR-PERSON TOLL CALLS

To make a particular-person toll call, or to secure information concerning the rates on such calls, tell the operator who first answers your call, the name of the city, town or locality in which the person with whom you wish to talk is located. The operator will connect you with a Toll or Long Distance operator who will identify herself by answering "Toll Operator" or "Long Distance." When the Toll or Long Distance operator answers, give her the following details:

The telephone number from which the call is made and your name, if you desire to give your name.

The number of the telephone desired, if known.

The firm name or the name and initials of the person under whose name the telephone is listed and the street address, if the telephone number is not known.

The name of the person with whom you wish to speak.

The name of the alternate person, if you are willing to talk with anyone else in case the person desired cannot be reached.

The name of the city or town and state in which the person desired is located.

Listen for the operator to repeat the details of your call and remain at the telephone until she indicates that you may hang up the receiver.

Messenger Calls—When necessary, a messenger will be sent to the address of the person desired requesting him to come to a telephone, provided the calling subscriber guarantees payment for the messenger service. The exact amount disbursed for messenger service will be charged in addition to the charge for the telephone connection and will be included in the bill for toll service against the calling telephone.

Collect Calls—Upon the request of the calling subscriber, the charges on a particular-person toll call, including messenger charges, will be collected from the called station, if such charges are accepted by the person called. Requests to have the charges collected in this way must be made when the call is given to the toll operator.

Appointment Calls—An appointment to talk at a specified time may be made by notifying the toll operator of the time at which the connection is desired. No extra charge will be made for appointment calls (except for any messenger service which may be involved) but the Company cannot guarantee the completion of the connection at the exact time specified.

Leave Word Calls—If the person desired is not immediately reached at the telephone called, the Operator will at the request of the calling subscriber, leave word (without charge) to have him call when ready to talk. On Leave Word Calls a message will be left at the called station for the person desired to call a particular toll operator; for example: "Philadelphia Operator." When the person receiving such a message is ready to talk, he should ask the first operator who answers to connect him with the toll operator mentioned in the message.

Rates—The more important points to which particular-person toll calls may be made, will be found in rate tables in telephone directories.

Reports—In case there is delay in completing a call, the toll operator will advise the calling subscriber, at suitable intervals, regarding the cause of the delay.

Request for Charges—If anyone calling from a regular subscriber's station (not a public telephone) wishes to be notified of the amount of the charges on his call, he will save time by requesting this information at the time he gives his call to the toll operator. If the request for such information is not made until the completion of the conversation, unavoidable delay may result while the operator obtains the rate and computes the charges.

SUPERVISION OF TOLL CALLS BY PRIVATE BRANCH EXCHANGE ATTENDANTS

Supervision of Toll Connections by private branch exchange attendants interferes with satisfactory service, and therefore attendants should not listen on the line after the connection has been completed.

FREE CALLS

Calls from any telephone in the Metropolitan Division may be made to any Department of the Telephone Company in that Division without charge.

The Metropolitan Division includes the five Boroughs of the City of New York—Manhattan, The Bronx, Brooklyn, Queens and Richmond (Staten Island), the New York Counties of Nassau, Suffolk (Long Island), Westchester, Putnam, Rockland, the town of Tuxedo in Orange County and Greenwich, Conn.; also the New Jersey Counties of Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Somerset, Union and a part of Ocean County.

POLICEMEN and FIREMEN will be allowed Free Local Service, provided that at the time the connection is asked for the policeman or fireman making the call gives the operator his badge number and states that the call is made in the performance of his official duties, as follows:

(1) From any Public Telephone in the Boroughs of Manhattan and The Bronx to any other station in these Boroughs.

(2) From any Public Telephone in the Borough of Brooklyn to Police or Fire Headquarters in that Borough.

(3) From any Public Telephone in the Borough of Queens to Police or Fire Headquarters in that Borough.

(4) From any Public Telephone in the Borough of Richmond to Police or Fire Headquarters in that Borough.

On all free calls made from coin box stations, the coin deposited in order to call the operator will be returned.

EMERGENCY CALLS

Calls for the purpose of summoning assistance in case of *fire, lawlessness* or *accident* will be given special attention, if at the time the call is made it is indicated that the call is necessitated by an emergency. The call should be given to the operator in such a way that the nature of the emergency is clearly indicated; as, for example, "*I want to report a fire,*" or "*I want to get a policeman.*" Emergency calls made in this manner will not be charged.

If circumstances compel the calling party to leave the telephone before obtaining connection with the desired station, the operator should be told of the exact location where help is needed in addition to the nature of the emergency.

TELEGRAMS BY TELEPHONE—Call by NAME

To facilitate sending telegrams and cablegrams, patrons should call by name for the Postal Telegraph-Cable Company, or the Western Union Telegraph Company.

Postal Telegraph-Cable Company—Call "Postal."

Patrons Calling "Postal" will be connected with the office designated by that Company to receive telegrams or cablegrams by telephone.

Western Union Telegraph Company—Call "Western Union."

Patrons calling "Western Union" will be connected with the office designated by that Company to receive telegrams or cablegrams by telephone.

By arrangement with the Western Union Telegraph Company, the charges for Western Union telegraph messages filed by telephone will be billed by the Telephone Company on telephone bills as rendered.

Patrons calling telegraph companies for any other purpose than to send a telegram or cablegram should call by number in the usual manner.

GENERAL NOTICES
for the Information of Telephone Users

WEATHER FORECASTS

Subscribers can obtain information relating to weather forecasts, by calling up the U. S. Weather Bureau, New York City. In case a call involves a toll charge, the toll will be charged to the subscriber making the call.

IDENTIFICATION OF EMPLOYES

Every employe of the Telephone Company authorized to inspect, repair or remove the Company's apparatus carries a metal badge showing the Company's name and his own number. Subscribers are earnestly requested to refuse access to their premises to anyone who cannot in this way identify himself.

ATTACHMENTS TO TELEPHONES

Telephone instruments have been designed to produce the best results and are, necessarily, very sensitive and intricate. The various unauthorized devices offered for sale and which are supposed to improve transmission, eliminate noise, destroy germs, supplant the telephone directory, etc., are unnecessary. Many of them get the telephone lines and instruments out of order and the Company, to protect its service, is compelled to remove them.

Subscribers' contracts provide that no instrument or appliance not furnished by the Company shall be attached to or used in connection with its instruments or lines.

INJURING TELEPHONE PROPERTY

Any person who wilfully or maliciously displaces, removes, injures, or destroys a line of telegraph or telephone, wire or cable, pier or abutment, or the material or property belonging thereto, without lawful authority, or who shall unlawfully and wilfully cut, break, tap, or make connection with any telegraph or telephone line, wire cable or instrument, or read or copy in any unauthorized manner any message, communication or report passing over it, in this state; or who shall wilfully prevent, obstruct or delay, by any means or contrivance whatsoever, the sending, transmission, conveyance or delivery, in this state, of any authorized message, communication or report by or through any telegraph or telephone line, wire or cable, under the control of any telegraph or telephone company doing business in this state; or who shall aid, agree with, employ or conspire with any person or persons to unlawfully do, or permit or cause to be done, any of the acts hereinbefore mentioned, or who shall occupy, use a line, or shall knowingly permit another to occupy, use a line, a room, table, establishment or apparatus to unlawfully do or cause to be done any of the acts hereinbefore mentioned, is punishable by imprisonment for not more than two years.—Extract from Section 1423 of the Penal Law.

PRIVACY OF TELEPHONE SERVICE

"A person who wrongfully obtains or attempts to obtain any knowledge of a telegraphic or telephonic message by connivance with a clerk, operator, messenger or other employe of a telegraph or telephone company, or * * * being such clerk, operator, messenger or other employe, willfully divulges to anyone but the persons for whom it was intended the contents or the nature thereof of a telegraphic or telephonic message or despatch intrusted to him for the transmission or delivery, or of which contents he may in any manner become possessed, * * * is punishable by a fine of not more than one thousand dollars, or by imprisonment for not more than two years, or by both such fine and imprisonment."

Extract from Section 552 of the Penal Law, Chapter 40 of the Consolidated Laws.

REMOVALS

On account of the time needed for changing telephone equipment from one location to another, notice in writing should be given at least ten (10) days prior to the time a removal is desired. Such notice should be addressed to the nearest Local Commercial Office. See addresses and telephone numbers of local offices on next page.

A large number of removals are required on or about May 1st and Oct. 1st each year. Ample notice thirty days in advance, if possible, will enable us to remove your telephone equipment so that your service will be practically uninterrupted.

TERMINATION OF CONTRACTS

Telephone charges are based upon one year's service. After a contract has been in force a full year, it may be terminated without cost by giving ten days' notice in writing. Short Term Rates will apply when contract has not been in force a full year.

SUSPENSION OF RESIDENCE SERVICE

When a residence is to be closed for any considerable period, the telephone service may be temporarily suspended without termination of contract or removal of telephone instruments, and under certain conditions, if arranged for in advance, a partial allowance will be made for a period not exceeding four months in any contract year; the allowance for suspended service on party lines will be made for only one (1) period of four months or less in any contract year. Bills will be rendered regularly while service is suspended, and the total allowance credited to subscriber when service is resumed. This suspended service does not apply to business telephones. It applies to residence telephones, and is offered as a convenience when water, electricity, gas, etc., are also being shut off, and the residence left without a caretaker. If a caretaker or watchman is employed, or the premises even casually visited by persons acting for the owner, it is recommended that telephone service be maintained, as the telephone is a very valuable aid in case of fire or accident.

DIRECTORY LISTINGS FOR NON-SUBSCRIBERS

Residents of Hotels or Apartment Houses and business men, who are not subscribers to Telephone Service, but who have desk room in offices equipped with message rate Telephone Service, may, with the consent of the subscriber, have their names listed in the Telephone Directory in connection with the telephone number of the Hotel, Apartment House, or Office in which they are located. A moderate charge is made for such listings.

BILLS FOR TELEPHONE SERVICE

Bills for local service will be rendered monthly in advance in accordance with the terms of the contract. Charges for suburban and long distance messages (foreign messages) will appear on the same bill, the charges covering a period of one month, but in order to render bills on the first of the month the period will begin and end several days before the end of the calendar month.

HOW TO ARRANGE FOR TELEPHONE SERVICE

For the convenience of the public the Telephone Company maintains a number of business offices throughout the city. These offices handle all matters relating to new telephone service, removals, termination of contracts, directory listings, directory advertising, adjustment of accounts, collection of bills, etc., in the territory served by the Central Offices for which these local business offices are responsible.

These offices can, however, handle any business relative to telephone service in any part of the territory.

The locations and telephone numbers of these offices, and the exchange districts covered by each, are as follows:

SPECIAL INSTRUCTIONS TO PUBLIC TELEPHONE AGENTS

REQUEST TO SEND A MESSENGER

Public Telephone Agents, on a request from the Toll Operator to send for any person, should endeavor to secure messenger service at as low a figure as possible, and in all cases should notify the Toll Operator of the charge, and receive her approval of the amount before sending the messenger.

The Public Telephone Agent should transmit the messenger's report to the Toll Operator as soon as the messenger returns.

PAYMENT FOR MESSENGER SERVICE

The Toll Operator will write a credit slip, covering the amount paid for messenger charges, which amount will be paid to the agent by a collector where the public telephone is equipped with a coin box, otherwise the amount will be credited to the agent's account.

CHARGES

Public Telephone Agents should collect either cash or pass for every call made from a public telephone, except in the case of calls described under "EMERGENCY CALLS," which are free of charge, and under "FREE CALLS."

PASSES

Passes issued by the New York Telephone Company are good only for messages sent over the lines of that Company, within the Division indicated on the pass.

Passes issued by other Local Companies are good only for messages sent over the lines of the companies by whom issued or countersigned.

Passes issued by the American Telephone & Telegraph Company (Long Distance) will be accepted in payment of tolls to points reached via the lines of that Company. These passes are not good for local or suburban Toll charges or for messenger service.

TELEPHONE DIRECTORY BINDERS

No telephone directory furnished by the Company for use at public stations shall be enclosed in cardboard or other binders which bear advertisements or printed matter not approved by the Company.

RATES FOR TOLL CALLS

WITHIN

NEW YORK CITY

Effective July 1, 1915

See list below for names of Central Office Districts and the toll rate area within which each is located. All rates are in cents for five minutes initial period of conversation from Public Telephones. Rates from Subscribers' Stations are five cents less except as otherwise noted.

TOLL RATES

From / To	Zone 1	Zone 2	Zone 3	Zone 4	Zone 5	Zone 6	Zone 7	Zone 8	Zone 9	Zone 10

MAP ON OPPOSITE PAGE SHOWS LOCATION OF ZONES

Reduced Rates for Telephone Service Within the City of New York

Effective July 1, 1915

The locations of the various zones are shown on the above map.

THE new schedules are the result of an agreement reached by the Public Service Commission, Second District, State of New York, and the Telephone Company, and are in accordance with the formal order of the Commission dated March 30, 1915.

The local calling area under message rate contracts has been greatly extended under these new schedules, and the rate per message considerably decreased from that charged for service in a smaller territory under standard schedules in effect prior to July 1, 1915. There are no changes in rate or local calling areas, in connection with Standard Local Flat Rate Contracts.

The introduction of these new rates on July 1st suggests that it might be opportune for you to consider changes in your present telephone equipment which would give added facilities and improved service at no addition to the present annual charges.

For full information regarding any contemplated changes in service under the new schedules, consult any of our business offices, given below.

Put Your Plans Into Action—Telephone

POSSIBLY you have a plan for promoting prosperity in your business, but are hesitating about putting it into action.

Why not turn to your *telephone*, test out the possibilities of your plan, then go after the business that's waiting for you?

It costs little to find out by *telephone* how you can get more business, and the telephone may give you just the help you need to *pull prosperity your way*.

Don't wait—work! Let the telephone help you to put your plans into action.

NEW YORK TELEPHONE COMPANY
